

AGGRESSIVE PORTFOLIO
Q3 2024 FACT SHEET & PERFORMANCE REVIEW
AS AT SEPTEMBER 30th, 2024

PORTFOLIO OBJECTIVE

This is, by nature of its title, an aggressive portfolio, pursuing long-term capital growth. Members with long-term time horizons (greater than 10 years) and capital growth objectives should consider this portfolio for relatively higher potential long-term investment returns. This vehicle is not a suitable short-term investment option nor for investors seeking capital protection or fixed returns.

PORTFOLIO ASSET ALLOCATION

The long-term asset allocation of this portfolio will be up to 70% in publicly traded Bahamian companies and the remainder invested in international mutual funds, fixed income instruments such as Bahamas Government Registered Stock, corporate and preference shares of Bahamian companies, along with money market instruments such as bank deposits and term deposits.

PORTFOLIO RISK and RETURN

While equities are riskier than cash or bonds, historical evidence from the world's major capital markets shows that equities reward investors with higher rates of return over long periods. We believe that this too will be the experience of the Bahamian equities market. Our expected long-term rate of return for this portfolio is 7% to 10% per annum, over rolling five-year periods.
